

Project: **887**

Project title: **Influence of tropical land-use transformations on local and regional climate in SE-Asia and Indonesia**

Project lead: **Merja Toelle**

Report period: **2016-01-01 to 2016-12-31**

While research is ongoing, no new simulations were performed up to this point (late October 2016). The already performed simulations are further analysed and results are in review for publication.

Based on the results we aim for climate simulations as the next step.
